2017-18 URPE Dissertation Fellowship

The Union for Radical Political Economics invites doctoral candidates in any discipline with an approved dissertation proposal in the area of radical political economics to apply for the URPE Dissertation Fellowship.

The URPE dissertation fellow will receive $5,000 to support their dissertation writing during the 2017-18 academic year. Applicants are asked to submit:

1) A cover letter describing their background in radical political economics and explaining how the fellowship would contribute to the completion of their dissertation;
2) Curriculum Vitae;
3) Their approved dissertation proposal;
4) Two letters of reference (one of which should be from the dissertation committee chair).

Questions and application material should be submitted by email to urpe@urpe.org. Letters of reference should be submitted directly by the letter writer. Deadline for submissions is May 31, 2017. The recipient will be announced by July 1, 2017.
URPE invites proposals for complete sessions and individual papers for the URPE at ASSA annual meeting. URPE welcomes proposals on radical political economic theory and applied analysis from a wide variety of theoretical perspectives. The deadline for proposed papers and sessions is May 1, 2017.

Proposals for complete sessions are encouraged and should include the session title, a brief description of each paper, and the names, institutional affiliations, and email addresses of the chair, discussants, and presenters. Proposals for sessions should contain four papers. If you are proposing a complete session, please try to arrange to have discussants for your papers and a chair for your session. As the organizer of this session, you are responsible for conveying administrative information to session members, including confirmation that the session has been accepted, the time and location, and the deadlines for distributing papers.

Proposals for individual papers should include the title, the abstract, and the author’s name, institutional affiliation, and email. Individual papers that are accepted will be assigned to sessions and each session will have an assigned organizer. Individuals whose papers are accepted may also be asked to serve as a discussant in a different session at the meetings.

We regret that high quality individual papers may be turned down due to the inability to place them in a session with papers with similar themes. The number of sessions we can have is limited by ASSA, and we regret that high quality session proposals may also have to be turned down.

You should receive word from URPE about the decision on your session or paper by late June. The date and time of sessions are assigned by the AEA at the end of August.

Please note that anyone who presents a paper (but not the chairs or discussants) must be a current member of URPE at the time of submission of the paper or panel proposal. Submissions are checked, anyone not current with their dues is notified, and then proposals are deleted if membership is not made current.

Details, including submission links and membership information are available at www.urpe.org.

Proposals submitted after the May 1 deadline will not be considered.

URPE @ Left Forum 2017 (URPE sessions at the Left Forum)
June 2 – 4, 2017  John Jay College of Criminal Justice, The City University of New York

The Left Forum is the largest conference in the US that in a major way spans, or bridges, the common activist/academic/intellectual divide. The call for this year’s Left Forum has gone out. If you Google “Left Forum” or go to www.leftforum.org, you will see information concerning the upcoming conference.

The basics for this year are that it will be June 2 – 4, at John Jay College (CUNY) in NYC. Every year URPE members participate in the Left Forum. We organize an URPE @ Left Forum set of URPE sponsored and co-sponsored panels, and in addition URPE members participate in other panels. Provided there are enough participants (which there have always been in past years), people presenting in the URPE @ Left Forum panels (like all organized groups) receive a large registration discount. There is a discount for anyone registering individually early by April 7 to $65 for the 3 days (the onsite registration price is not yet published but is significantly more). Participants registering though us for the URPE @ Left Forum panels there, again by April 7, pay only $35. (Note any student with an ID can register for $20, and any member of the John Jay community for $15.) Those who think they might go should start to talk now about forming a panel to others with similar interests who might go and present. We have two different (simple!) online submission forms. For those of you that have a group of 3 or more that want to present a session, use the session submission form. For those of you that have an individual presentation to present, use the individual presentation submission form, and we will work to match your presentation with other related individually submitted presentations.

NOTE: if you submit on-line to URPE @ Left Forum, you do not need submit to the Left Forum directly as well – we make panels out of presentation submissions to us (if at all possible), and then we submit all those panels, along all submissions to us of whole panels, as a group to the Left Forum. More information can be found at www.urpe.org.

As every year, members from the URPE Steering Committee are happy to work with anyone building a panel, to discuss any ideas or answer any questions about the conference. This year please contact Al Campbell (al@economics.utah.edu) or Paul Cooney (pcooney@ufpa.br).

URPE Brooklyn Conference
Left-Wing Economics in a Right-Wing Political Climate
April 8, 2017
St. Francis College, Brooklyn NY

The Conference will bring together the theoretical perspectives of radical political economics and the organizational experiences of those engaged in struggle on the many crucial issues confronting us today. It will, we hope, contribute to the development of an agenda that can guide all of us in the difficult years ahead.
The URPE Brooklyn Conference has as its main goal the urgent need to confront the Trump administration. It is not, therefore, a “traditional” academic conference that provides URPE members with an opportunity to present their work to other economists, generally in the form of “academic” papers that are, necessarily, somewhat narrow in content. Instead it should be seen as a working day, to be used for discussion of what needs to be done. Specifically, it is structured to provide ways for those familiar with radical political economic theory to identify how this can contribute to the development of such policies and for those actively involved in political activity to identify the needs that they are facing in building our struggle.

People who register for the conference are therefore asked to name the workshops that they wish to participate in, and whether they would be willing to act as facilitators in these workshops. It is expected that there will be from 2-4 such facilitators for each workshop. The task of facilitators is three-fold:

- To provide an introduction to the topic of the workshop in the form of an overview either of relevant radical political economic theory (such as might be used at the start of a course) or of the work of those actively engaged in struggle on these issues and the challenges they face in confronting the misperceptions of the general public, and mobilizing them for action. (It is expected that each these presentations will take no more than 20 minutes.)

- To organize a discussion among those attending each workshop in which everyone is expected to share their ideas. It should not be assumed that the facilitators have more “expertise” than others. At least one person should be assigned to take notes on the discussion.

- To develop a comprehensive summary of the ideas presented at the workshop (including areas of both agreement and disagreement) that will be presented to the final plenary. While one person will generally be assigned the responsibility for this presentation, its content should be the result of a collective decision (probably in the last 15 minutes of the workshop), and as such be approved by the workshop as a whole.

The final plenary, at which these workshops will be presented will, of course, allow for discussion. It will be followed by an informal “cocktail hour” to allow people to meet together informally and identify ways in which they can work together.

**Workshops** The following is a preliminary listing of possible workshops topics:

- Trump’s fiscal policy (tax policy and infrastructure spending)
- Income distribution: wages vs. profits
- The Fight for $15 and other labor issues
- Workplace organization – unions today
- Immigration and global capitalism
- Community organization and cooperatives
- Health care after Obamacare
- Student debt and the state of higher education
- Households and the care economy
- Black Lives Matter
- Climate change and the environment
URPE at EEA Program

It is assumed that all workshops will recognize the class, gender, and racial/ethnic dimensions of issues. All URPE members, friends of URPE, and those whose work (not limited to that in educational institutions) involves the development and presentation of radical political economic theory, are invited to contribute to the presentation of radical political economic theory. The conference organizers also ask for help in soliciting input to the workshops from the activists whose work provides us with direction for our collective struggle.

Register at www.urpe.org

Suggested Registration Fee
Early registration: $30 per person; $15 for students.
Late registration (after March 18): $35 per person, $20 for students.

CALL FOR PAPERS: URPE@SEA
Deadline March 31, 2017

URPE is organizing sessions at this year’s annual meeting of the Southern Economic Association.

The conference will be held in Tampa, FL at the Marriott Waterside Hotel & Marina, November 17-19, 2017 (Friday to Sunday).

Please submit paper and/or session proposals to Scott Carter through www.urpe.org.

Thanks,
Scott

Scott Carter
Associate Professor of Economics, The University of Tulsa
URPE Steering Committee member
Dear URPE supporter:

If you have not yet become a member of URPE, then this letter is for you. People find their way to URPE through many channels including academic and professional networks, conferences, and our online community.

URPE, which is the sum of its members’ activities, has been dedicated for the past 49 years to advancing a humane, critical analysis of real-world economic systems. Radical political economy has fought to be heard within the economics profession. URPE has played an essential role in providing opportunities for publication and discussion of ideas that go against the grain of conventional economic thinking. URPE, to be effective, needs as large a number as possible of active members.

It is important to stress the need for formal membership (which costs $20 per year at minimum). We are only truly stronger when we are together. We are a small professional association within our discipline and our growth as an organization can only serve to increase our influence within our field. Increasing our influence, which is a primary mission of URPE, has historically been necessary, but perhaps more so now that here in the U.S., and abroad, conservative decision makers are making great gains in their access to power. As a network of radical political economists who are organized, we can offer alternative solutions to social and economic problems. We hope that all who identify with URPE, but are not now members, will decide to join us, both by paying dues and by participating in the activities of the organization.

In Solidarity,

Frances Boyes
URPE Coordinator

Membership dues and renewals can be processed securely online at: www.urpe.org/about/join.html
